* This price is not include VAT7%

About the Seminar

This seminar is developed by ENAA under entrustment from Ministry of Economy, Trade and Industry of Japan. It provides comprehensive knowledge and skills of overall project management for promising young engineers who work in international engineering and construction fields. This seminar will be jointly conducted by ENAA and TPA (Thai-Japan).

Who should Attend

- Engineers working for engineering companies, Japanese or affiliated with Japan, including plant engineering, civil construction, heavy industry, energy, electronic /electrical, IT, chemical, automotive, Transport/logistics
- Engineers in pursuit of a project management position /career for construction projects
- Individuals who need to strengthen their project management knowledge and skills

Number of Participants

30 participants (on a first-come-first-served basis)

* Limitation 5 participants per company

Note

- All participants are required to fill out the attached registration form.
- Contents of program are subject to change.

Course Benefits

1. Learn the overall Engineering Project Management fundamentals and a major management method adapted in Japan company.
2. Enhance practical knowledge and skills throughout all stages of project management.
3. Learn how to build the common understanding with Japanese and other engineers in engineering and construction project management.

Instructor Speaker and Moderator Mr. SATOSHI INOUE

Mr. SATOSHI INOUE is Deputy Director of International Division of Shimizu Corporation, one of the largest general construction companies in Japan. He was a lecturer for Project Management in Singapore for 6 years to train the local engineers, managers and architects under the Singapore Building and Construction Authority Academy. At the same time he was a member of the Productivity Centre Advisory Panel and Member of Best Buildable Design Awards Committee of the Building and Construction Authority in Singapore. Currently, he is also a director of the Japan Singapore Association. His 36 years of overseas career started from Malaysia in 1983. Since then, he had been involved in many types of building and facility projects in Thailand, Singapore, Malaysia, Kuwait and several other countries. He is now leading new business development related to environment and new advanced technologies for the future construction and buildings developments.
